EMPOWERING
Women Entrepreneurs

BE A PART OF THE CONVERSATION

Women2Women Tour events are so much more than just another expert panel or seminar. We want to hear from you about the issues you face as female business owners and entrepreneurs. W2W is all about constructive dialogue that allows us to bring perspective back to Washington.

Women2Women has built a reputation as an agent of change in the halls of Congress because of participation from women like you. The issues we discuss on this tour will produce action on legislation to promote mentoring programs, increase access to capital, and improve outcomes for women entrepreneurs. So join us, submit your discussion questions, and make your voice heard!
